CAPABILITY STATEMENT

About Us

Founded in 2001, Innovative Homes & Remodeling, Inc. is a Service-Disabled Veteran Owned Small Business that offers a range of construction, roofing, mission critical facility and environmental services to federal, state and local government users. All projects are completed on time, on budget, in accordance with the scope of work and in a safe manner.

For 16 years, Innovative has held statewide maintenance contracts with Wells Fargo Bank and Bank of America. Since December 2023, Innovative served as a subcontractor to a large prime contractor and completed three mission critical power projects at the White House in Washington DC.

Innovative carefully selects teaming partners based upon their capabilities and decades of experience serving DOD, VA, and other federal or state clients. Strategic teaming arrangements offer the best possible combination of capability, technical support and professional expertise to serve clients. Whether a need exists for construction services, mission critical facility services, Asbestos/Lead/Mold inspection, maintenance or emergency services, Innovative stands ready to support throughout the Southeast and Puerto Rico.

Founder and President, Ed James, began his career by enlisting in the United States Marine Corps at the young age of 17. While stationed in California, Japan and the Philippines, he logged more than 700 hours in CH-53 Delta helicopters as an Aviation Life Support Technician. In January of 2001, Ed began became a licensed Building Contractor and started Innovative Homes & Remodeling, Inc. in Tampa, FL. He became a licensed roofing contractor and OSHA authorized trainer for construction in 2019. Ed completed a structured mentor-protégé program for construction with USF/Skanska Construction in 2023.

Program Manager, Eric Lien is a Tampa native and holds a Masters Degree in International Business Studies, from the University of South Carolina. Fluent in German, he worked as a senior executive in Germany for two decades before entering the field of government contracting in 2010. He has extensive experience as a senior level advisor to C- level management, federal proposal preparation, contract administration, and construction project management. Since 2010, he has supported contracts for USArmy Installation Management Command, USACE, Department of State, General Services Administration, and South Carolina Statewide Term Contracts. An OSHA authorized trainer for construction since 2019, he also holds a certification for Construction Quality Management from the USArmy Corps of Engineers since 2016. He completed the Turner Construction School training in 2023.
